

Learning at Coorparoo in Year 5 looks like...

Term 1 2023

ENGLISH

Examining Literary Texts - Fantasy Novel

Students listen to, read and interpret a novel from the fantasy genre showing understanding of character development in relation to plot and setting. Students analyse and explore the narrative structure and language features used to engage reader, develop character, setting and plot.

Assessment:

Students write a fantasy narrative.

Analysing and Creating Persuasive Texts

Continued in Term 2.

Students read, view, deconstruct and construct a range of persuasive texts to explore the language and structural features.

Assessment:

Task 1

Students interpret and analyse information from a feature article.

Task 2

Students create a feature article that presents a particular point of view about an issue/passion or interest.

SCIENCE

Animal Adaptations

Students examine the structural features and behavioural adaptations that assist living things to survive in their environment, including those that survive in extreme environments.

Assessment: Students create a fictional creature and describe the relationship between structural and behavioural adaptations needed to survive in an environment and use data to suggest explanations consistent with environmental data.

HUMANITIES AND SOCIAL SCIENCES (HASS)

People and the Environment

Inquiry question: *How do people and environments influence one another?*

Students explore and investigate to:

- Understand how human actions can influence the human and environmental characteristics of countries in Europe
- Understand how to represent and describe the location of Europe, its major countries and selected characteristics
- Understand the cartographic conventions of maps
- Understand that landforms are an environmental characteristic of place

Assessment: Written Test

THE ARTS Semester 1

Dance

Students explore and manipulate dance elements to create and perform a dance.

Assessment:

Students choreograph and perform a dance sequence

Music

Students make and respond to music exploring pieces of music that tell a story, and music that appears in film.

Assessment: Portfolio

LANGUAGES – GERMAN Semester 1

What is family?

Students explore and use language to communicate ideas relating to the concept of family and group identity.

Assessment: Collection of work

HEALTH Semester 1

Emotional Interactions

Students explore how feelings, emotions and moods can affect their own and others' behaviours and responses. Students practice decision-making and problem-solving skills and identify actions to enhance their safety and that of others.

Assessment: Students provide written responses pictorial and written scenarios involving relationships and friendships.

PHYSICAL EDUCATION

Water Safety and Education Program

The learning focus categories of this program are:

- entries and exits
- buoyancy
- submergence
- swimming for survival
- survival sequence
- rescue and lifesaving
- water safety knowledge

Assessment: Observations and Checklist

MATHEMATICS

Number and place value

- factors and multiples
- multiplication 3digit and 4digit x1digit
- use a written strategy for addition & subtraction
- round & estimate to check the reasonableness of answers
- explore techniques for multiplication
- explore mental computation strategies for division and multiplication
- division by one digit number with and without remainder
- solve a range of problems using mental and written strategies
- use of digital tech. strategies

Fractions and decimals

- model, identify, represent, compare and order unit fractions
- solve problems using unit fractions
- strategies to add & subtract simple fractions with the same denominator.

Using units of measurement

- measurement of time
- read & represent 24-hour time, compare and convert
- estimate & measure the perimeter and area of rectangles

Chance

- describe equally likely outcomes
- represent probabilities of outcomes using fractions
- conduct a chance experiment & investigate the fairness of a game.

Data representation and interpretation

- define, explain and collect numerical and categorical data
- choose appropriate methods to record data and compose summary statements

Assessment:

Multiplicative reasoning and fractions
Short answer Statistics and Data
Short answer and investigation
